RE: Recommendation Letter  
Coshocton New PK-6 Main Building Package.

To Whom It May Concern,

I have had the privilege of working with Chris Rice and the rest of the Four Seasons Staff on the Coshocton Elementary New PK-6 Elementary School Project. Having managed many projects over the past 8 years, I can say without a doubt that the Coshocton Elementary chilled beam system is the most functional HVAC system Resource has managed to date. Our staff attributes this success in part to the hard work Chris has done in working with very competent contractors on this project. We look forward to working with Four Seasons again on the Lancaster Schools Project and would highly recommend this group to other clients around the State of Ohio.

Sincerely,

**RESOURCE INTERNATIONAL, INC.**
