To Whom it May Concern,

Four Seasons Environmental, Inc. was hired by Mason City Schools to perform Commissioning Services for the renovation/addition of our Early Childhood Center and complete renovation of our 267,000-square foot Middle School.

I was impressed with the value Four Seasons, and particularly Nick McDonald and Dom Dufourcq, brought to the process. Nick and his Team went above and beyond, remaining engaged despite delays.

Additionally, throughout the Middle School project we encountered numerous design and installation issues. Four Seasons invested a considerable amount of time collaborating with the architect, engineer, and contractor to ensure proper installation of functionality. Nick and his team worked hard to ensure we had a functioning and comfortable building.

Four Seasons' knowledge, continued advocacy and customer service truly benefited our district and I would strongly recommend them to anyone undertaking a renovation or construction project.

Respectfully,
