

## Letter of Recommendation

Date: 21 April 2022

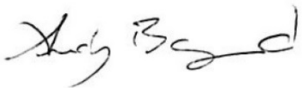

To whom it may concern,

This is a letter of recommendation for Four Seasons Environmental, Inc. I had the privilege to work with the Four Season's team on one of our community based outreach clinics for the Chillicothe VA Medical Center, in New Boston, Ohio at our Portsmouth Clinic. My role on these projects was working as the VA's Project Engineer / Contracting Officer Representative. The design of these projects was for a renovation of leased space for a VA outpatient primary care clinic.

Our team found the commissioning process working with Four Seasons to be very enjoyable. The Four Seasons team was very competent and came to commissioning meetings/inspections ready to perform to help keep the process moving forward. The Four Season's team met our intent as well as the builder's expectations. The products they created helped track findings to resolution.

Given my experience working with Four Season's I would recommend them for use as Commissioning Agent's.

Sincerely,

Andrew B. Bolyard, P.E.  
Asst. Chief, Facilities Management Service
