To Whom it may concern,

I would like to thank Chris Rice and Four Seasons Environmental, Inc. for the outstanding help and support they provided in the building of our new K through 6 school building here in Coshocton. I greatly appreciate the professional involvement that Chris and his team showed while working with myself, all the other contractors and school administrators. I would recommend Chris Rice and Four Seasons Environmental, Inc. because of the professional manner and knowledge shown while working with all of us building out new elementary school.

Sincerely,

Jerry Unger
