

**THE PLACE TO BE**

## BUSINESS OFFICE

Jerry Rainey, Director of Business

May 13, 2019

To Whom It May Concern:

It is my pleasure to recommend Four Seasons Environmental, Inc. to your company. I have worked directly with Chris Rice, Facilities Performance Group Manager, beginning in 2013 on our Lancaster City Schools Elementary project, which included 5 buildings. We hired Four Seasons Environmental, Inc. again in 2017 to commission our two Junior High School Buildings that are currently being built. Mr. Rice, along with the team from Four Seasons Environmental, Inc., has performed outstanding work for our district.

Four Seasons Environmental, Inc. has the best interest of our district as their number one goal. They have not only made sure that the work that is being done meets all specifications, but they are also asking the question of how this will affect the district in five years. They also take the time to explain more complicated system issues and provide us with advice on how to address issues after the contractors are completed. Mr. Rice has also taken the time to teach me what to look for during the building process. I have become more confident in asking questions that are relevant to the quality of our buildings.

Working with Mr. Rice and the Four Seasons Environmental, Inc. team has been an outstanding experience. They have provided a high quality service in a professional manner and have become my "go to" folks for needed clarification. The team has been prompt in responding to questions and they provide a valuable service. I recommend them without hesitation and look forward to working with them in the future.

Sincerely,

A handwritten signature in blue ink that reads "Jerry F. Rainey".

Jerry F. Rainey  
Director of Business  
Lancaster City Schools
