Four Seasons Environmental, Inc.

To Whom It May Concern,

On behalf of the Miami University Staff I wish to take this opportunity to express my sincere appreciation and heartfelt thanks for the outstanding efforts of Nick McDonald and the Four Seasons Commissioning Group. During the past year, Four Season's has demonstrated a consistent diligence and professional commitment toward the commissioning of the MU East Quad Project. In addition, before and during this time Four Season's has continued to assist the construction team with the successful close-out of this project.

I'd like to specifically point out the contributions of Nick McDonald, who has maintained a continual dialogue via emails, phone calls and on-site visits to ensure that this project met all of the required specs and has accomplished this as a collaborative team member. Nick has always maintained the highest integrity with his role as our Commissioning Agent for our building projects. He has also aided in making sure our energy systems perform and function as designed. I am very comfortable in recommending Nick McDonald and the Four Season's team as a quality commissioning firm.

Sincerely,

Doug Hammerle.
