

TIMOTHY R. LEE  
Senior Vice President

## LETTER OF RECOMMENDATION

Subj: **Four Seasons Environmental, Inc.**

To Whom It May Concern:

Four Seasons Environmental has continuously provided Facilities Performance Services for the MidUSA Credit Union since 2008.

- **Operation and Maintenance**

FSE operates, maintains and repairs MidUSA's main office in Middletown, Ohio daily as well as four (4) other Branch locations in southwest, Ohio.

- **Commissioning**

The Dollar Tree HVAC/electrical tenant build out was successfully commissioned by FSE in 2015.

- **Preventive Maintenance**

All 28 of MidUSA's mission-critical HVAC/electrical assets are preventively maintained utilizing FSE's Cloud-based, paperless Computerized Maintenance Management System, *Maintenance Track*.

- **Facilities Support Group Meeting**

FSE facilitates four to six Facilities Support Group Meetings each year wherein all facility-related topics are discussed. Appropriate plans for successful resolution of facility issues were formulated and then executed.

I immediately reached out to FSE upon taking my current position with MidUSA Credit Union based on my previous (10+ years) excellent experience with them providing the same services at several GE facilities. I would strongly recommend Four Seasons Environmental to any potential client and would be happy to provide additional feedback if needed.

Respectfully,

Timothy R. Lee  
Senior Vice President
